Figure 10 is a grid-based diagram illustrating a sequence of operations. The grid is divided into three main regions: a hatched area (1010) on the left, a dark gray area (1004) at the top, and a black area (1008) on the right. A sequence of numbers (1, 2, 3, 4) is shown in a central region, indicating a path or sequence of operations. A label 1006 points to the bottom edge of the grid.
